A CUSTOMER'S FIRST CHOICE

No Refrigeration

The Veekes and Company range of pasta sauces and soups needs no refrigeration while storing it at the warehouse, store or home.

Cut Labour Cost

The pasta or soup mix when stirred with water for just over 2 minutes turns into an authentic and delightfully thick textured sauce that pours well over 240 grams of boiled pasta making it a perfectly balanced meal for 1 especially when tossed with vegetables or meats of choice. IT IS AN AUTHENTIC MEAL WITHOUT THE NEED OF AN EXPENSIVE CHEF.

Incredible Value

OUR RANGE @ INR 40, is very affordable and breaks the convention in this cuisine category of being expensive and exclusive. Together with pasta and an assortment of garnishing a single sumptuous meal of a Veekes and Company pasta would cost a QSR not more than INR 45. Soups will cost you less than INR 20 per serving. Charge what you will over that to determine your profit.

Takes just 2 Minutes

You have your authentic pasta sauce or soup in just 2 minutes. The same as your regular instant noodle.

ABOUT THE COMPANY

Established in 2009 in Bangalore to address a need for specialty cuisines at affordable prices that catered to a wider segment, the idea was to make niche cuisine accessible and affordable and yet retain the authenticity of preparation keeping in mind the Indian palate. We offer today affordable and yet authentic niche cuisines perfected over 5 years across an F&B business spread over 4 states and 17 restaurants and which was by far the most popular Euro restaurant chain in the country.
